## S18 18" Subwoofer

Sound reinforcement heavily relies on good solid bass performance. Reasons being: 1) a good majority of musical information is low frequency material; 2) low frequency reproduction is less efficient Watt for Watt and pound for pound compared to midrange and high frequency transducers.

### Our S18 subwoofer product helps answer the demand for bass:

- **Easily handled by one person**
- **Extra solid construction**
  - 13 ply 18mm Baltic Birch
  - 5 internal braces
- **28 - 150 Hz usable frequency range**
- **1000 Watt continuous (AES standard)**
- **2000 Watt program power handling**
- **Ultra durable driver for high output sub frequencies**
- **98 dB 1W/1m and 126 dB long term continuous output**
- **134 dB maximum peak output**
- **HWD 24" x 24" x 21.5" or 610mm x 610mm x 546mm**
- **95lbs or 43kg**
- **2 Neutrik NL4 speakon connectors**
- **Heavy duty castors, grill and handles**
- **Black vinyl polymer coating**
- **Available options**
  - Installation version
  - Custom finishes
  - Flyware
